Emerging contemporary art in Berlin  
29. / 30.09.2007

### **Aaperto im 4. Berliner Kunstsalon**

Temporary spaces -  
Emerging contemporary art in Berlin  
27.09. - 02.10.2007

### **Press release #01**

**Aaperto** – created by Miriam Bers and Stefano Gualdi, GoArt! – is a new series of events. Selected studio visits will take place for the first time in the course of this year's Kunstherbst, starting during Berlins' Art Fairs.

Because of GoArt!'s work concerning art mediation with guided tours and curated events ([www.goart-berlin.de](http://www.goart-berlin.de)), studio-tours also present a key feature of our portfolio.

Focussing on artists' studio visits, **Aaperto** concentrates on promising talents and demonstrates the dynamic range of creative works in Berlin. The city is known as a melting pot of contemporary art and produces a continuously growing amount of local and international artists.

Already an insider tip for young Berlin based artists is a former industrial site at Weißensee Pankow, built in the 1930s and used by the Stasi during the GDR regime. From the spectrum of artists today working in their studios at this very place, GoArt! presents a selection of fascinating and promising contemporary **art-positions:** Kaj Aune (Norway) - Daniela Ehemann - Matthias Moravek - Judith Schwinn and Kerstin Wagener from artists' network Plan W, Etienne Allaix (France), Tim Ernst, Wolfgang Ganter, Susanne Knaack, Manfred Michl, Isolde Krams (South Africa), Alexej Meschtschanow (Ukraine), Ricard (Sweden), Rebecca Thomas, Erling Viktor (Denmark).

In cooperation with eleven of the artists **Aaperto – temporary spaces** has been developed at the 4th Berliner Kunstsalon. There, in a 300 m<sup>2</sup> huge hall, the artists will produce a star-shaped room-sculpture – which will not only present the individual artists' positions and the studio based networks and branches they developed – it is also a self-contained piece of art and creates new, exciting constellations.

**For more detailed information see page 2**
